SECTION 2.02: Those industries and farms who have their own supply of water for uses other than human consumption and choose to connect to the water system may continue to utilize their own supply for those non-human uses only.

SECTION III CONNECTIONS

SECTION 3.01: No persons shall uncover, connect with, make any opening into or use, alter or disturb in any manner, any part of the water system without first obtaining a permit, in writing, from the Township or its designated water supplier.

SECTION 3.02: Application for a permit required under 3.01 shall be made by the Owner of the Improved Property served or to be served or by a person

SECTION 3.03: All connections to the water system must be done in accordance with the specifications, plans and procedures established by the designated water supplier.

SECTION 4.02: In such case, the Township Supervisors shall, upon completion of any work required to bring the owner into compliance, send an itemized bill of the costs of construction to the Owner of the property to which connection has been made, which bill shall be payable forthwith.

SECTION 4.03: In case of neglect or refusal by the Owner of such Improved Property to pay said bill within six (6) months of the date of completion of construction of said connection, the Township Supervisors shall, within said period, file a municipal lien for said construction, which shall be subject in all respects to the general law providing for the filing and recovery of municipal liens.
